

Started by Wayne Sheldon in 1977, MidCanada Production Services Inc. has grown to be one of the largest independent production facilities for film and television in Manitoba, and the most technologically advanced production house between Toronto and Vancouver. MidCan has developed a solid reputation for servicing all genres of the film and television industry. Our 16,500 square foot facility can handle all aspects of TV, Film, Audio & Web production. Whether it's creating a new website, renting a HD camera package and crew, duplicating your first album, or doing a Dolby® Surround mix on a "Hollywood-style" movie, it all takes place under one roof.
