

STUDIO SPACE

MIDCAN

42' x 25' Studio with Seamless Cyclorama

MidCan has a 42' x 25' studio. One end is dedicated to a seamless white cyclorama, with rounded corners to eliminate shadows. 8' x 10' ChromaKey walls in Green and Blue are built in. Black and navy curtains on tracks encircle the space for use either as a backdrop or for sound deadening purposes. Double doors and walls eliminate noise, as does the insulated ceiling and specially designed HVAC system. The load-in door borders our rental department for easy access to grip and camera gear. The load-in door also leads to the elevated concrete loading dock in our back alley. Washrooms and greenrooms are close at hand. The lighting grid is 14'6" off the floor, and 3-phase power is available for those that need larger fixtures.

WHEN
YOU
WANT
MORE

\$250 for HALF DAY (4 hours)

\$500 per DAY

Prices for studio space only, and don't include greenrooms and extras. Power (but not lighting) is included.
